Our inception can be traced back to the visionary project of Thailand's Ministry of Tourism and Sports, known as the Thailand Privilege Card project. The Ministry entrusted the Tourism Authority of Thailand (TAT) with the implementation and operation of this project in the form of a limited company. Thus, "Thailand Privilege Card Company Limited" was founded on August 29, 2003, with TAT as its sole shareholder. As a state enterprise, our company can provide unparalleled privileges, particularly in matters related to visas and Thai governmental liaisons, as well as exceptional experiences throughout Thailand.

▶ Every day, we go to work hoping to do two things: share great coffee with our friends and help make the world a little better. It was true when the first Starbucks opened in 1971, and it's just as true today.

Back then, the company was a single store in Seattle's historic Pike Place Market. From just a narrow storefront, Starbucks offered some of the world's finest freshroasted whole bean coffees. The name, inspired by Moby Dick, evoked the romance of the high seas and the seafaring tradition of the early coffee traders.

In 1981, Howard Schultz (former Starbucks chairman, president and chief executive officer) first walked into a Starbucks store. From his first cup of Sumatra, Howard was drawn into Starbucks and joined a year later.

A year later, in 1983, Howard travelled to Italy and became captivated by Italian coffee bars and the romance of the coffee experience. He had a vision to bring the Italian coffeehouse tradition back to the United States. A place for conversation and a sense of community. A third place between work and home. He left Starbucks for a short period of time to start his own II Giornale coffeehouses and returned in August 1987 to purchase Starbucks with the help of local investors.

From the beginning, Starbucks set out to be a different kind of company. One that not only celebrated coffee and the rich tradition, but that also brought a feeling of connection.

w Is a brand in Club 21 Group. About ISSEY MIYAKE, Japanese designer ISSEY MIYAKE once told British broadsheet The Guardian that he wanted his clothes "to be enjoyed, to be fun, to infiltrate popular culture in much the same way as blue jeans and T shirts have." And more importantly that it's suitable for women of all ages. An ISSEY MIYAKE number rarely dates, stubbornly refusing to be pigeon-holed into one specific season. Radical and challenging in concept, his designs are nonetheless completely wearable.

■ Is a brand in Club 21 Group. There is more to Stella McCartney than her famous surname. When she launched her eponymous label in 2001, after having spent four years at French fashion house Chloé, it was already evident that McCartney has talent. Her signature style – sharp masculine tailoring reinvented for the womanly form, sexy femininity and complete wearability – has won her legions of fans who are enamored with her sophisticated, never-try-too-hard designs. A lifelong vegetarian, the Stella McCartney label eschew fur and leather in its product lines. Conscience-chic, Stella McCartney invented it.

We want Thais to live longer and better lives. Even though modern medicine has helped us live longer, it doesn't mean we're living better lives. Lifespan is how long we live, while healthspan is how long we live in good health. In Thailand, the average lifespan is 80 years, but the average healthy lifespan is only 65 years. That means we spend 20% of our lives in poor health. LIVMORE's main goal is to extend healthy lifespan. This can be achieved through a healthy lifestyle and taking the right dietary supplements based on solid science. All diseases are caused by abnormal cell function. If cells in a particular organ malfunction, it can lead to disease. Therefore, keeping our cells functioning properly is the key to preventing disease and increasing healthspan.
